"If W. R. Hearst is the democratic nominee for president, we suggest that there be no election held this fall, but by acclamation declare Roosevelt elected."—Mt. Vernon Signal.

Brer Albright shouldn't be so severe on Mr. Hearst, who is not only a good democrat, but who has done great service for the party. The fact that he has eight great daily newspapers and some \$15,000,000 or \$20,000,000 should not be urged against him. Mr. Hearst has proven his ability as a business man, is holding a seat in Congress from a district nearly 7,000 republican, which should give him some precedence as a politician, is in the prime of an honorable life, and we think, fully able to carry democracy's banner to victory. The Interior Journal is not red hot for Mr. Hearst by a long shot, but it sees no good reason to fight him or do even worse—compare him with Teddy—as the Signal has done.

PROSPECTS OF Hon. Harvey Helm being made the nominee for Congress in this district grow brighter daily. The clean, manly course he has taken in the race has made him staunch friends all over the district who will stand by him through thick and thin. Mr. Helm has not had many years' experience in Congress nor does he own plantations in other States, but he has the good will of the boys in the trenches, the bone and sinew of the democratic party, and he will get their votes to a man. Unless all signs fail, Hon. Harvey Helm, of this place, will represent the Eighth district in Congress after March 4th, next.

If the republican majority in congress is really anxious and willing to put an effective check on the unscrupulous frauds committed in the postoffice department by men of their own party, then let them get together and push through, with all dispatch, a bill extending the statute of limitations for such offenses from three to six years. Such a measure might enable the government to catch some of the rascals once in a while who are now able to cover up their tracks until the statute operates in their favor and bars prosecution.

THE Casey County News, Henry Thomas, editor, made its appearance Friday. It is a very creditable six column folio and is deserving of the liberal patronage it will no doubt receive. It has a good run of advertisements and bears the evidence of a successful publication. The only bad feature about the paper is its republican politics.

Gov. BECKHAM vetoed the bill to give the Attorney General two assistants and Attorney General Hays went after the executive without gloves for doing it. Gov. Beckham had his inning yesterday and among other things charges that Mr. Hays perverted the records to deceive the public.

A. T. Wood condemns Hunterism and Sapplemen and says Dr. Hunter has no more influence with the Administration than a snowball in the lower regions.

POLITICAL.

Virginia friends of Fitzhugh Lee are pushing him for president.

Allie Young says that Hearst will get Kentucky's instructed vote for president.

Investigation of protests against U. S. Senator Reed Smoot will be resumed April 12.

Senator J. Campbell Cantrill opened his campaign for Congress in the Seventh district at Versailles yesterday.

E. C. Linney, a Louisville politician, has purchased the Mountain Echo, of London, and will assume charge at once.

Hon. A. O. Stanley was unanimously renominated by the democratic committee of the Second district for Congress.

Tennessee republicans held their county conventions, and Jesse Littleton led all competitors in the race for the gubernatorial nomination.

Hon. Ollie James was re-nominated for Congress at a meeting of the First district democratic committee at Paducah. There was no opposition.

Attorney General Hays is preparing a response to Gov. Beckham's answer to his protest against the Governor's veto of the bill providing for assistant attorneys.

Returns from the Arkansas democratic primary indicate that Gov. Jeff Davis has carried enough counties to win a third nomination for governor in the State convention in June.

The work of the last General Assembly will consist of 131 laws, the governor having vetoed 15 acts wholly and two in part. Among the bills approved Friday was the measure appropriating \$20,000 for a monument to Gov. Goebel.

The constitutionality of the law signed by Gov. Beckham to tax single-stamp liquors will be contested in the courts by all the wholesale dealers of the State, who will probably organize a permanent association to safe-guard their interests.

The Senate committee on Judiciary reported to the Senate a bill for the protection of the president. It provides the death penalty for assassins of presidents or assassins of vice presidents or any officers of the United States upon whom the duties of president have devolved under the law.

Gov. Beckham replies to the criticism made by Attorney General Hays of his action in vetoing the bill providing assistants for the attorney general's department at a yearly expense of \$6,200. He characterizes the attack made on him as "unwarranted and based on false statements."

He says that Attorney General Hays perverted the records in order to disparage him and deceive the public. The governor also says that much of the money paid out for attorneys' fees which Attorney General Hays charges to his administration was paid for attorneys employed under the administrations of Gov. Bradley and Gov. Brown. He concludes by saying that he has no apology for vetoing the measure, and would do it again if it came before him.

If these plans are carried out the Baptist church will continue the meetings in July.—Middleboro News.

Daniel J. Sully has employed counsel for the purpose of prosecuting a suit against Edwin Hawley, who, he claims, was interested in the bull pool. Sully's counsel asserts that Hawley and Frank H. Ray were Sully's partners and that the failure was due to their evading the responsibility when the tide set in against the firm. Hawley and Ray say no relations existed between them and the Sully firm other than those of customer and broker.

No. 75, 15,000 acres of cotton land in Mississippi. There is no section of country which offers so many opportunities for profitable investment as the Mississippi Delta which is now fully described as "Prospect Valley." The timber is becoming more valuable all the time for the reason that lumber people from the North (where the supply of timber is fast diminishing), are constantly increasing their purchases of timber lands in the South. When the timber is removed the land is unequalled for agricultural purposes. It will produce a bale of cotton to the acre or will grow any other kind of crop raised in the temperate zone. The soil needs no fertilizers and gives a yield which cannot be excelled; taxes are low, the title is perfect and the man who buys Delta farm and timber lands at present prices is making an investment that he will never regret. This land is divided into tracts ranging from 40 acres to the tract to 17,000 acres to the tract and prices from \$8 per acre to \$16 per acre, according to location, etc. We are authorized by the company who owns these lands to state that as other parties are considering the purchase of these lands that we offer these tracts subject to prior sale, withdrawal from market or change of price without notice. However, when notified, they will hold any tract out of market long enough for the purchaser to make an investigation. About 12,000 acres of this land has been sold by the Company since we received this option. For further particulars call at our office.
